Each September, people unite from all corners of the world to raise awareness and to challenge the stigma that persists around Alzheimer's disease and all types of dementia.

During World Alzheimer's Month, we call on everyone, from individuals to large organizations, including every Alzheimer and dementia association globally, to support World Alzheimer's Month by getting involved in some way.

This year's theme, 'Know Dementia, Know Alzheimer's,' continues on from the 2021 campaign, which focused on diagnosis, the warning signs of dementia, the continued effect of COVID-19 on the global dementia community and more.

In 2022, the campaign will have a special focus on post-diagnostic support. Following recent developments and potential breakthroughs, in both dementia treatment and support, the campaign will aim to highlight the importance of support for people living with dementia and families following a diagnosis.

## Rosh Hashanah

Rosh Hashanah commemorates the creation of the world and marks the beginning of Awe, a 10-day period of introspection and repentance that culminates in the Yom Kippur holiday, also known as the Day of Atonement. Rosh Hashanah and Yom Kippur are the two "High Holy Days" in the Jewish religion.

Wife Appreciation Day on the third Sunday in September provides an opportunity for spouses to show appreciation to their wives.

The relationship between two people takes balance. Every day, spouses do things for each other, sometimes without thinking. Other times, work and responsibilities get in the way. This observance offers a reminder to show a little appreciation to your wife.

This particular observance sets aside time for couples who have no children. Not every woman is a mother, either by chance or choice. Since so many holidays celebrate families with children, this day offers a day for those who remain childless.

## National Bald is Beautiful Day

National Bald is Beautiful Day on September 13th honors noggins without hair. Being bald brings a beauty all its own.

Not only does baldness come in many forms, but it also comes with some convenience. For men especially, the cost of hair products and haircuts is reduced. Additionally, reduced grooming time for men who find no more hair must be a relief.

However, hair loss can be stressful for both men and women. Whether the cause is due to illness, medication, family heritage or age most people hope to keep their hair for as long as possible.

What is Labor Day and why do we celebrate it?

Labor Day pays tribute to the contributions and achievements of American workers and has been traditionally observed on the first Monday in September. It was created by the labor movement in the late 19th century and became a federal holiday in 1894.

Here are six fun facts about Labor Day

1. The first U.S. Labor Day was celebrated on Tuesday, September 5, 1882 in New York City, planned by the central Labor Union. The Labor Day parade of about 10,000 workers took unpaid leave and marched from City Hall past Union Square uptown to 42nd St., and ended in Wendel's Elm Park at 92nd Street and 9th Avenue for a concert, speeches, and a picnic.
2. Oregon was the first to declare Labor Day an official holiday in 1887.

### National Cheese Pizza Day Sept 5th

On September 5th, National Cheese Pizza Day says, "Hold the toppings!" That's right, cheese is all you need when celebrating this pizza holiday. Whether the pie is homemade or ordered in, make it cheese only. Add a variety of cheeses to your pie to celebrate. Smoky Gouda or a little Gorgonzola might mix it up.

*Julia Ann Walklett*

I have the privilege of working with the absolute best team. No matter what is thrown their way, Team Jackson is ready and takes it head on. It is amazing how everyone steps up when there is a need. During this latest outbreak everyone has done their part in getting the residents and staff tested. When we had to open the COVID Unit, people stepped up for staffing the unit as well as moving patients as needed. As we are working to fill our positions, our team members are busy recruiting people. I am so appreciative of all Team Jackson is doing.

Patriot Day

On September 11, Patriot Day gives all of us time to reflect on the devastating terror attacks that took nearly 3,000 lives. We commemorate those who we lost and give thanks to the brave first responders who put their lives on the line. Take a moment today to consider what we stand for as a nation and how we can work together to make the world a better place for all.

The bravery of American citizens and uniformed personnel in the face of one of the world's most terrible terrorist attacks is remembered on National Day of Service and Remembrance on September 11.

It was a terrifying day when four planes were hijacked on September 11, 2001 (also known as nine-eleven). The hijackers flew three planes into iconic buildings: the Pentagon in Washington DC and the Twin Towers of the World Trade Center in New York. The fourth plane crashed in a field in Pennsylvania after the plane passengers fought the hijackers. Nobody is certain where it was supposed to crash, but some people believe it was headed for the White House, the U.S. Capital, the Camp David presidential retreat in Maryland, or one of several nuclear power plants along the eastern seaboard.

The impact of this attack was devastating. Around 3,000 lives were lost between plane passengers, those in the buildings that were struck, and front-line workers trying to save people. It was the biggest act of terrorism ever in the United States. Since then, airplane security has become stricter in many countries as they attempt to avoid a future terrace attack like nine-eleven.

The majority of lives were people that worked in the Twin Towers, especially the floors above the collision point as people were trapped and stranded at the top of the burning skyscraper. 411 men and women working in emergency services lost their lives trying to fight fires and rescue people from the buildings. It was a heartbreaking attack, which is why Patriot Day was proclaimed by President George W. Bush and is recognized every year on September 11.

On Patriot Day, U.S. flags are lowered halfway, and there is a country-wide moment of silence at 8:46 am(Eastern Daylight Time), which is when the first plane crashed into one of the Twin Towers. Although the attacks were in the U.S., Patriot Day is recognized worldwide as the news devastated and impacted people all over.

A day of trivia at The Meadows. Here are just a few of our winners.

POUTING

Pouting is a passive behavior that is designed to make you feel guilty. If you do wind up feeling guilty when your child pouts, that's really more your problem. Why should you feel bad for trying to be a good parent? Just because your youngster didn't like the demand or restriction you placed on her? You shouldn't.

So if you discipline a child and he/she give you the ultimate in martyr looks, just turn around, say nothing and walk away.
